

# THE IMPACT OF VOLUNTEERS

## South Dakota Volunteer Stats

- 34.7% of the state's population volunteers on a regular basis
- South Dakotans provide 21.5 million hours of service on average per year, totaling nearly \$484 million of service contributed.
- South Dakota ranks #7 in the nation for overall % of volunteers

### LOCAL IMPACT

Giving of your time, talents and skills is no small thing. In our community, United Way volunteer efforts focus on education, financial stability and health initiatives, the building blocks of a better community.

Last year, over 2,000 volunteers devoted their time and talents to United Way and our Partner Agencies, contributing nearly 120,000 hours of service!

Volunteering is just one way that we can work together for the greater good. That's what it means to LIVE UNITED.

**“Volunteers don't have the time, they just have the heart”**

### HOW YOU CAN MAKE A DIFFERENCE

Making an IMPACT on our community does not have to be difficult or time consuming. Give an hour. Give a Saturday. Give your best. When we reach out a hand to one, we influence the condition of all.

Whether it is mentoring children, leading financial literacy classes for hard-working families, delivering meals to seniors or helping out in times of crisis, there are hundreds of volunteer options available.
